**Subject:** Update for BP Whiting oil spill web page -- thanks for doing this Jen. There will be another update on Sunday afternoon.

The U.S. Environmental Protection Agency and the U.S. Coast Guard were on site today to oversee a fourth day of cleanup operations following an oil spill into Lake Michigan that BP reported on March 24. Due to continuing inclement weather, Shoreline Cleanup Assessment Team crew boats were not deployed today. EPA and USCG will be on site over the weekend to oversee cleanup operations. Crew boats will be deployed on Sunday, weather permitting.
